

MARCH/APRIL 2003

CONTRACT LIGHTING

PAPER MAGIC

This series of unique lighting fixtures features handmade paper that is backed with hard acrylic, allowing light to radiate from the entire surface. Dimensions range from large ceiling- or wall-mounted styles to slender 4" x 14" models that can be hung. Free-standing luminous columns and recessed light panels are also available.

Custom, site-specific designs can be developed upon request. The fixtures can

be lamped with incandescent, xenon, or fluorescent. **INVISIBLE LIGHT STUDIO**
