

## Quadrillion

**Quadrillion** is a free-standing light panel. It is both a light source and a piece of moveable architecture. It has four different light settings. The hinged panel allows for easy replacement of the bulbs. It has one face of fabric and layers of multi-colored handmade paper and a second face of canvas emitting a soft diffuse light. Quadrillion can be made in a variety of materials, finishes and sizes. The dimensions pictured above are 58" x 58".
